

MATCH-IT

McQUAY **MATCH-IT** IS LAST GENERATION
TECHNOLOGY IN CLIMATE CONTROL

Match-It offers flexibility with its outdoor units that allows the matching of different indoor units providing the freedom to choose the optimal solution for different commercial and residential applications.

Cassette, Fan & Coil and Floor type units are designed to meet most requirements for residential and commercial applications. These units are environmentally friendly, very efficient, and are available in different capacities to cover a full range of climate control issues. DC INVERTER Compressor reduces the outdoor noise while working efficiently.

ADVANTAGES

- * INVERTER COMPRESSOR
- * HIGH CALIBER CABINET
- * R-410A ECOLOGIC REFRIGERANT
- * HEAT PUMP.

CONDENSING UNIT

Capacity from 18,000 to 60,000 BTU/h
220V / 50HZ

PREMIUM FEATURES:

- DC Inverter Compressor
- High Density Steel Cabinet
- Low Noise Level
- Multi-point Diagnostics
- High Reliability
- Long-Term Durability

CASSETTE

Capacity from 18,000 to 60,000 BTU/h
220V / 50HZ

PREMIUM FEATURES:

- Airflow Direction Control
- Multi-Speed Fan Control
- Wireless Remote Control
- Comfortable Cool and Energy Save Function
- Vacation Function
- Low Noise Level
- Easy Maintenance and Cleaning

FAN COIL

Capacity from 18,000 to 60,000 BTU/h
220V / 50HZ

PREMIUM FEATURES:

- Airflow Patterns for Extra Comfort
- Multi-Speed Fan Control
- Flexible Installation
- Internal Condensation Pump
- Comfortable Cool and Energy Save Function
- Vacation Function
- Wired Controller Included
- Easy Maintenance

FLOOR · CEILING

Capacity from 18,000 to 60,000 BTU/h
220V / 50HZ

PREMIUM FEATURES :

- Multi-Speed Fan Control
- Flexible Installation
- Wireless Remote Control
- Comfortable Cool and Energy Save Function
- Vacation Function
- Easy Maintenance and Cleaning
