MATCH-IT

MIU SERIES

Daikin **Match-It** system is climate control last generation's technology

Match-it offers flexibility, its outdoor units can be connected with different indoor unit types providing freedom of choice. The most optimal solution for commercial and residential applications.

Cassette, Fan & Coil and Floor | Ceiling units are designed with the best engineering to meet most application and design requirement for any space. These units are environmentally friendly and high energy efficient with several capacities to cover a wide range of climate control challenges. The Inverter compressor reduces outside noise while performing efficiently and powerfully. Its R-410A refrigerant makes Match-It the best ecologic/green choice for today's businesses. The impressive wide range of Match-It capabilities provides powerful and stable climate control for a wide variety of commercial applications.

ADVANTAGES

- Inverter compressor
- High caliber enclosure
- Low sound levels
- Ecological Refrigerant R-410A
- Cooling only equipment
- High Efficiency

R-410A REFRIGERANT

INVERTER

CONDENSER

Features

- Inverter compressor
- Steel high caliber enclosure
- Low sound levels
- Ecological Refrigerant R-410A

▶ 24000 to 60000 BTU/h capacity
230V /60HZ

*5 tons – available only in 230/3/60

CASSETTE

Features

- 4 Way Air
- Wireless remote control
- Auto-restart
- Built-in drain pump
- Washable air filter
- Wired controller (sold separate)

▶ 24000 to 60000 BTU/h capacity
230V/60HZ

FAN & COIL WITH ENCLOSURE

Features

- Built-in drain pump
- Ecological Refrigerant R-410A
- Wired controller (sold separate)
- Low sound levels

▶ 36000 BTU/h capacity
230V/60HZ

FLOOR | CEILING

Features

- Wireless remote control
- Auto-restart
- Swing louver
- Low sound levels

▶ 24000 to 60000 BTU/h capacity
230V/60HZ
