**MQMI Mini-Split Series – Inverter**

**Efficiency and Comfort**  
at your fingertips

## Mini-Split System Inverter - 50Hz

### Product features

- Inverter technology compressor
- High efficiency up to 3.0 EER
- Goldfin. Anticorrosion added to cooling coils increase equipment lifespan (optional)
- Wireless remote control
- Galvanized steel enclosure covered with UV high weatherproof paint
- Available in Cooling only

### Great benefits from advanced technology

- Better temperature control for increased comfort
- Efficient and quiet operation

### Cooling Only

MQMI SERIES

| Model               | Voltage             | Nominal Capacity (Btu/h) | ERR  | Dimensions      | Weight  |
|---------------------|---------------------|--------------------------|------|-----------------|---------|
| MQMI-164012-CWF215A | 220-240V, 1Ph, 50Hz | 12000                    | 3.01 | 805x194x285 mm  | 8.2 kg  |
| MQMI-164012-CCU215A |                     |                          |      | 700x275x550 mm  | 20.5 kg |
| MQMI-164018-CWF215A | 220-240V, 1Ph, 50Hz | 17000                    | 3.0  | 957x213x302 mm  | 10.6 kg |
| MQMI-164018-CCU215A |                     |                          |      | 770x300x555 mm  | 27.9 kg |
| MQMI-164024-CWF215A | 220-240V, 1Ph, 50Hz | 21000                    | 3.0  | 1040x220x327 mm | 13.8 kg |
| MQMI-164024-CCU215A |                     |                          |      | 845x363x702 mm  | 38.7 kg |
